Dear Mr. Therrien:

I am writing in regard to the Village of Cayuga Heights LCP #1708. We have received Modification #1 to our LCP, dated 11/15/2012, authorizing the Village to capture and sterilize 145 WTD does as well as Modification # 2, dated 11/30/2012 allowing for ovariectomies.

I am again writing to request a modification to our LCP. As we have increased the number of does to be captured and sterilized, we are also experiencing proportionally more captures of male fawns. Condition # 5 allows for the capture and temporary possession of up to 30 male WTD for purposes of tagging. We request a modification of this condition to increase the number of male WTD to be captured to 50.

We are making good progress in our surgical sterilization program, with 94 successful female surgeries to date.

Please let me know if you have questions or need additional information.

With thanks for your assistance,

Kate Supron
Mayor, Village of Cayuga Heights
